TRICHOMONIASIS REPORTING REQUIREMENTS: EFFECTIVE SEPTEMBER 6, 2013

1. **REPORT TRICH TO NDA IN 5 DAYS** The cattle producer or their veterinarian must report the positive diagnosis to NDA - Animal and Plant Health Protection (APHP) within five business days from knowledge of formal diagnosis. Call 800-572-2437.
2. **NOTIFY ALL NEIGHBORS WITHIN 14 DAYS** after knowledge of formal diagnosis. Cattle Producers must notify their neighbors. Neighbor means - adjacent landowners or land managers, with land capable of maintaining livestock susceptible to bovine Trichomoniasis, even if cattle are not currently maintained on such owner's or manager's land.
3. **SUBMIT A FORM TO NDA WITHIN 14 DAYS** after the diagnosis. The Cattle Producer must submit a Neighbor Notification Form which includes the names of adjacent landowners and land managers who were notified and their contact information. (A form is available at the NDA website www.nda.nebraska.gov).

This is only a summary of the Trichomoniasis reporting requirements. The full statute may be viewed at the NDA website for specific definitions and language.

Questions concerning the Trichomoniasis reporting statutes may be directed to NDA at:
