

Informational Materials Available

NDA has published material covering all aspects of the pesticide and noxious weed programs. These are available for individuals and groups in hard copy, and many are also available on the Internet. In addition, NDA personnel are available for addressing dealers, applicators, and organizations at both formal and informal meetings. Please call (402) 471-2351 to check on the availability of any of the materials listed below or to visit with NDA staff.
