

YES! I want livestock in my county!

Let your county board know that you support the continued growth and development of the livestock industry in your county.

Print/mail your postcard and send to your county board.

Tell your county board that you support livestock!

Dear County Board Members,

I am a resident of _____ County, and I support the growth and development of livestock. Livestock accounts for nearly \$14 billion in on-farm sales in Nebraska and has a tremendous impact in this county. The economic impact of livestock development and grain purchases supports local schools and businesses, future growth on farms, and our rural communities as a whole. I request that you examine our county regulations to ensure that livestock development is embraced and encouraged to grow here. Thank you for your time and consideration.
