Open Country Adventures is part of a working farm and ranch that has been privately owned by the same family for over 120 years. Our business is located in southwest Nebraska, which allows us to enjoy many cloudless, dry, mild days to hunt. The topography for our hunting leases consists of rolling sandhills, flat open farmland, canyons, lakes, and wooded creek and river bottoms. Our bird hunts, on our ranch, are guided by local guides that have been long-time residents of the area. Our hunt transportation is also "one in a million;" a modified 4x4. We are a sporting retreat for hunters and sportsmen offering full-service pheasant and quail hunting packages.

We are a small operation that offers great opportunities to take the game you are after. The deer hunts are very limited and offer close shots at unpressured deer. There are good numbers of turkeys on our properties, and, because of the limited number of hunters, we keep you on fresh, unpressured birds. We continue to improve the land to make your hunt a success.
