Family owned and run feedyard. Consulting
nutritionist is the top of the industry.
Consulting vet is very progressive. Yard is
well maintained and pens are all well
drained. Yard is located in close proximity of
five ethanol plants and three major and two
regional packers. The owners have run the
yard for over 25 years. We offer corn and by-
product contracting. Because of our location,

our cost of gain is very reasonable compared to other feedyards.

34 years of feedlot experience. 28 years in management, 16 years in operation of my business. I specialize in calves with micro-management techniques that maximize profitability. I'm a working manager/owner of a family run feedlot operation. I have a Bachelor of Science degree in Ag Econ from UNL. My son is also a graduate of UNL with a Bachelor degree in Animal Science. Urwiler Feeder, Inc. was established in 2000 after I spent 12 years managing a large feedlot. I wanted to have a smaller feedlot in order to better care for the cattle.

When I got back from Vietnam in 1969 my
father was in the process of expanding our
feedlot. My father had our first irrigation well
and pivot irrigation system the years before.
The summer of 1969 two concrete silos were
constructed. In the late 1970s I built two
harvestors which have been torn down. In
2006 we were permitted for 2500 head, one
time capacity by DEQ. My four sons and I
are still feeding cattle
